Staff Spotlight

Tabatha Oline

Aquatics Coordinator

"I've worked at the Community Center for about 9 years, in several different positions. I grew up in this community before the Community Center was built and I love seeing what it has come to mean to the community- a place for family, friends, kids and staff to come together for fun, to learn new skills, to better themselves, and to stay connected.

As a parent in this community, I am excited that we are able to have so many events and classes and camp/ Afterschool for the youth in our community. My children love being here and someday want to work here as lifeguards (YAY!). I am happy they have a place to be that is fun, safe, and engaging and provides opportunities for them to learn skills they can use throughout their lives.

The employment and mentorship opportunities we provide to the youth in our community are super rewarding and getting to watch these kids grow and mature has been a highlight for me. We also provide valuable services to our community through aquatic safety classes, swim lessons, Aquafit classes, CPR and lifeguard training, making our community a safer and heathier place. My mission in Parks and Rec has always been to create a fun and safe place to be and to learn new and important skills and I am glad I am able to continue to do that for our community.

When I am not at the Community Center I love doing all sorts of water activities like swimming, snorkeling, rafting, and visiting waterparks. When not in the water I love to crochet, paint, go to concerts, and I am an avid reader. I also like to hike, snow shoe, and ride bikes in our wonderful mountains."

Managing an aquatic facility can be a challenge, but Tabatha has been successfully running our pools for years now! The pools are the highlight and gem of the Parks & Rec Department. Her top priority is safety and she runs a tight ship as the "pool mom". Her bubbly personality also provides a fun atmosphere when it comes to our programs and events in the pool! We appreciate everything you do, Tabatha! Thanks for making a splash in our community!
