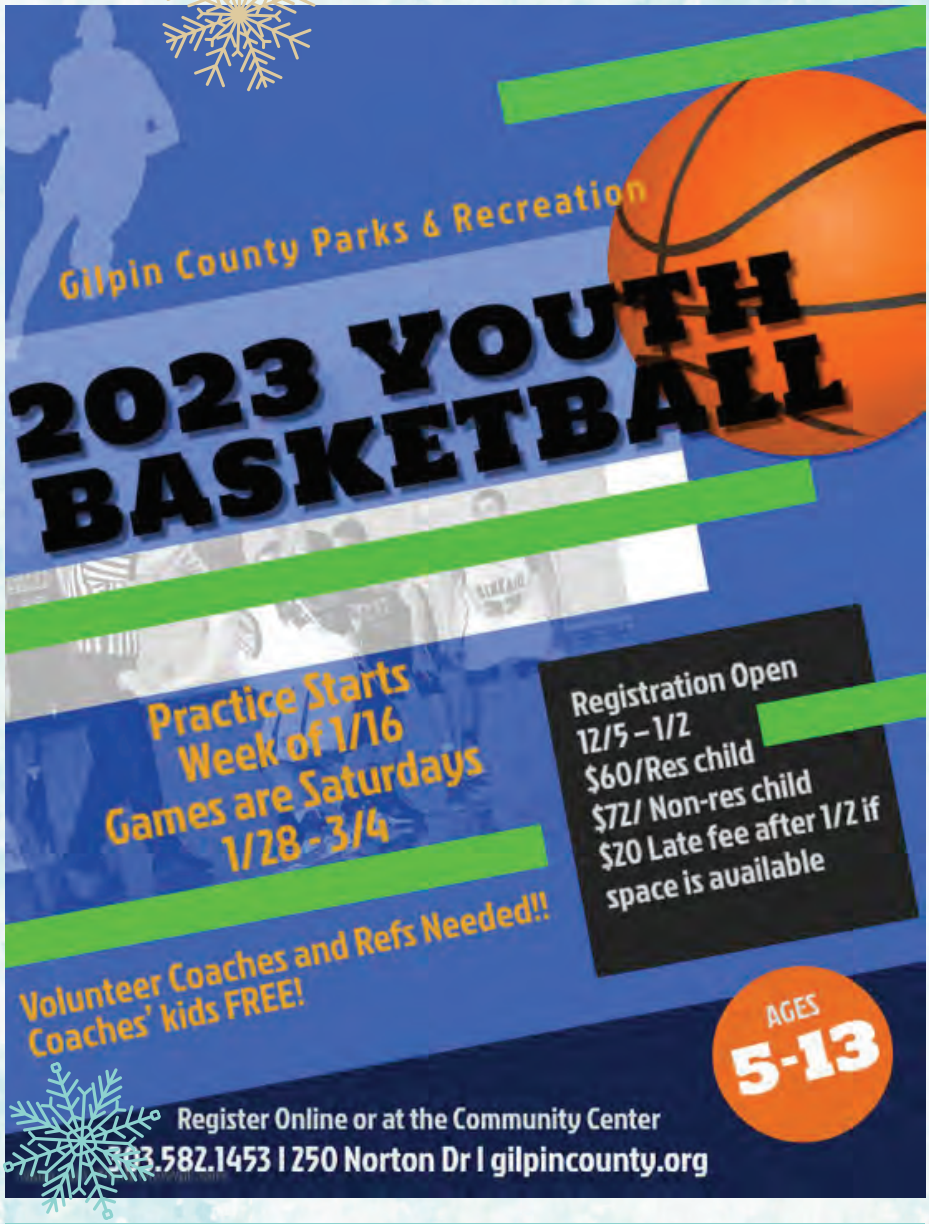
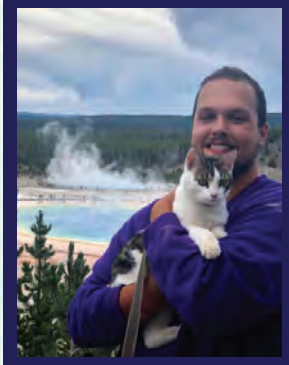
REC CONNECT



Staff Spotlight

Connor Robinson

Recreation Coordinator



"Parks and Rec is important to me because sports and athletics are a great way for kids and adults to meet friends and create lifelong bonds as well as give them the opportunity to grow socially and physically. I think having Parks and Rec departments allows communities to come together over positive things like sports, classes, and community events as opposed to focusing on negativity in our communities.

For recreation I like to play pickup basketball and really enjoy just spending my free time outside. I have two cats, Butters and Hopper, who love to go hiking or camping with me. I've been to 17 National Parks and my cats have been to 6 with me."

Connor is a huge asset to our team! With 5 years experience running youth and adult league sports and a degree in sport management, he will be able to bring a new vibe and caliber to our programs. He is an athlete himself and also has experience as a sports official and coach. Connor has a positive, upbeat energy and has already brought improvements to the department like making our Instagram page and the Holiday Lights Map! We are so excited to welcome Connor to GCPR!

Community Center Holiday Hours
