PEAKS TO PLAINS TRAIL, HUNTSMAN SEGMENT CONSTRUCTION

Impacts to US 6: April 2024

Maintaining public safety during complicated construction of the next 3-mile long segment of the Peaks to Plains Trail requires overnight closures of US 6 from CO 119 to CO 58/CO 93 in Clear Creek Canyon. Several overnight closures will occur in 2024, with the first of these planned for **Monday, April 8**.

Closures are planned for the overnight hours when traffic volumes are the lowest, and multiple work activities will be done under one closure when possible to reduce the number of closures needed.

Closing the highway overnight will allow several different construction operations to take place at the same time, shortening the project's timeframe.

CLOSURES

Mondays, 7:00 p.m. to 7:00 a.m.

Crews will be able to reopen US 6 for emergencies if needed. Schedules are weather dependent and subject to change.

ALERTS

The project team will distribute emails, update information on the project hotline, and post information on social media channels. You can also use these resources to stay informed on area construction projects:
