Staff Spotlight Daizsa Caldwell Youth Program Leader

"I am originally from California. I recently hit my one year in Colorado. I studied child development and geology in college. That kick-started my love for being outside and working with children. I work in the SPED department at Gilpin Elementary and I am a camp leader at the Gilpin Rec center. I've recently added coaching middle school soccer into the mix! I also volunteer in my spare time and this past winter I volunteered at the NED Ice Rink.

When I am not working or volunteering I am passionate about planning outdoor activities and crafts for camp. It's important to be excited about what you are doing as part of keeping the kids engaged. Having fun is always my main goal for whatever we do at camp and maybe it gets a little messy!

Working with children is rewarding on so many levels! Most days you can find me with a smile, thanks to my staff and families. Not only do I work at the rec center but I avidly work out, play volleyball, and do softball recreationally. The rec center is like my second home. This community brings people together that might not normally speak to each other outside of the rec center. I always feel warm and welcomed walking in. On top of it all, it is in such a beautiful location!

I enjoy snowboarding, ice skating, hiking, paddle boarding, playing softball, road tripping, yoga and camping. I love exploring and trying new outside activities when I have the time. My motto is when you have the opportunity you take it! Life is really what we make of it."

Daizsa joined our summer camp staff last year, and immediately added a passionate energy and positive attitude to our team. She has continued to help through the school year with sports, after school camp, and some creative activity planning. We are glad she traded the beach for the mountains to join us here!

BOWLS & MORE

SATURDAY MORNING CLAY

WITH STEVE

SATURDAYS

8 WEEKS

APRIL 1 - MAY 20

9.30 AM - NOON

\$170

This eight-week class will make bowls, with an emphasis on the form for a particular function.

What is the ideal shape for a mixing bowl?

A soup bowl? A bowl for use with chopsticks?

And multi-purpose bowls, can we have enough of them?

We will also spend time with glazing.

Are bowls susceptible to certain glazing flaws?

Does crazing matter? Do pinholes?

Near the end of the session, we will glaze/decorate pots

for the high-fire gas kiln, with an eye toward

the upcoming benefit pottery sale.
