Sydney Nation

Recreation Generalist

“My name is Sydney Nation. I started working at the Community Center a little over a month ago as a Recreation Generalist. I work in a few different positions here on the day to day. I work at the front desk, in the pool as a lifeguard and in camp with the kids as a childcare aide. I have been lucky enough to live in the mountains of Colorado for nearly my whole life. I went to school in Nederland, but I have been a part of the Gilpin County community for quite some time now. I work at a horse boarding facility in Gilpin County as well. I enjoy working with horses, playing volleyball, and seeing my friends and family in my free time.

Throughout my whole life I have been a very active person. In middle school I started playing volleyball and basketball. I have continued playing volleyball into my adult years. This sport has been a huge part of my life and it continues within the community center. I love playing in the co-ed leagues for volleyball as well as the tournaments.

I started working at the Community Center a little over a month ago, however the community center has been a huge part of my life for much longer than that. When I was a kid, my brother and I would spend most of our days in the summer at the rec center in the pool, playing in the gym, or riding our bikes on the trails outside. To say I have a lot of childhood memories here would be an understatement. I have spent many days at the community center since then as well, riding my horse in the gymkhanas, playing in the volleyball co-ed leagues, and attending the fair every year as well.

The community center has been a place to get a workout in, see friends, and meet new people for not only me but many others as well. Now that I work at the community center, I work with some of the kids that go to camp or the after-school program there. It is very cool for me to see these young kids getting the same opportunities and making the same memories that I did when I was their age. One day I hope those kids will be able to visit the rec center in their adult years and have so many happy memories to come back to as well. The youth programs at the community center aren't the only thing that brings the community together. The community center also offers youth & adult sports programs, senior programs, special events, and so much more.

The community center is the heart of parks & recreation for Gilpin County and has been since 2003, making it a vital part of the community. I wanted to work at the community center as a generalist for many different reasons. I wanted to be more involved in the community in some way and have some sort of positive impact. As a generalist, I work in many different areas of the rec center and get to see what they offer to the community. I have learned a lot in the short amount of time I have worked here, and I am very thankful to Parks and Recreation in Gilpin County for the opportunities they have offered to me!”

Gilpin County Parks & Recreation is lucky to have another talented, long-time community member join our team! Sydney is kind, hardworking, flexible and has a servants heart. The great programming we offer our community is possible because of our awesome staff - Thank you for joining us, Syd!
